Percepción

Esta sección está constituida por enunciados pertenecientes a una escala Likert consultados entre los años 2018 y 2020. Las variables de esta escala corresponden a un nivel de medición ordinal, sin embargo, para efectos de la visualización y análisis de los resultados, se recodificaron los resultados para transformar las variables a un nivel nominal: las valoraciones 'Muy de acuerdo' y 'De acuerdo' fueron consideradas como "Favorables" y **se muestran en la sección verde de los gráficos**, mientras que las calificaciones 'En desacuerdo' y 'Muy en desacuerdo' se reagruparon como "Desfavorables" en **color carmesí**.

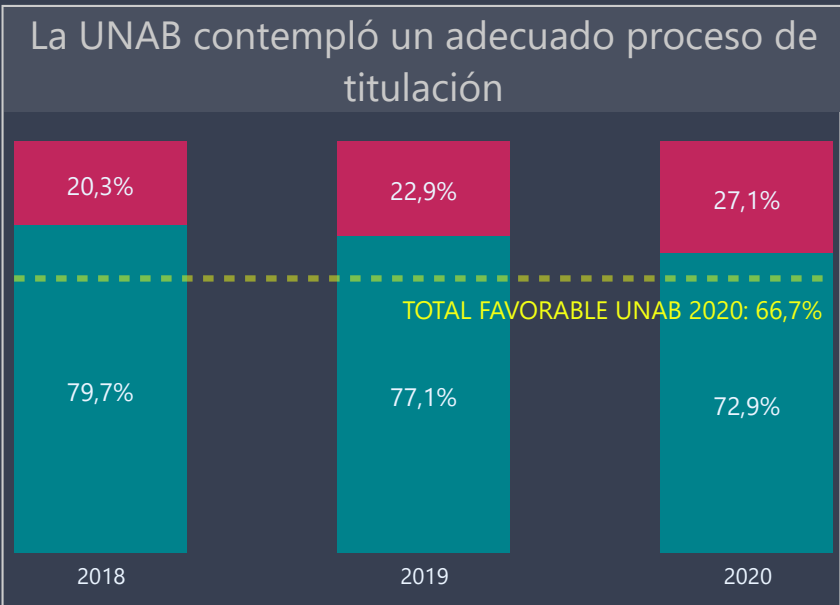

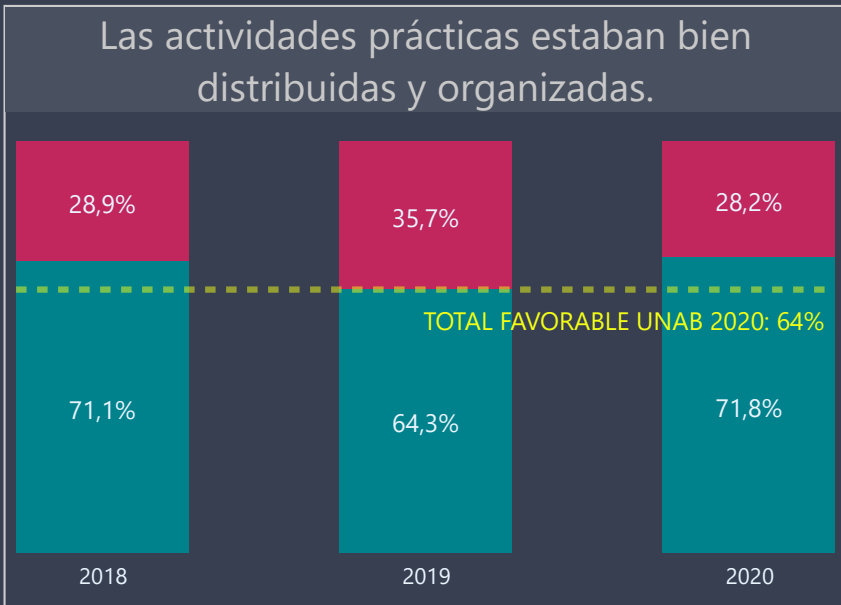

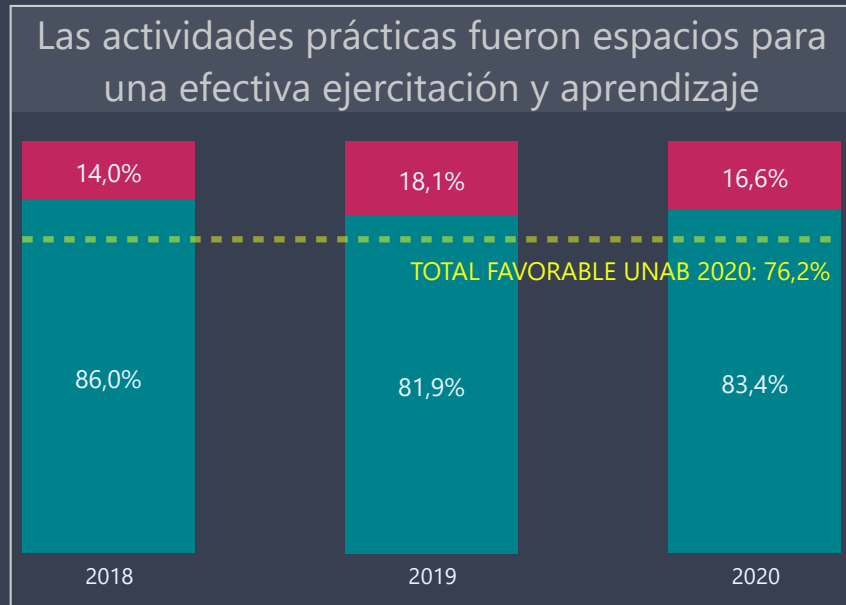

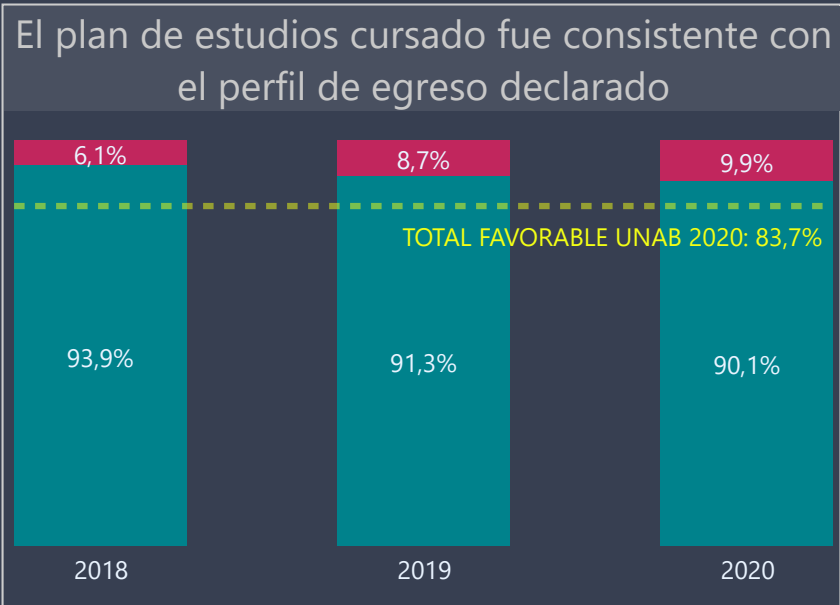

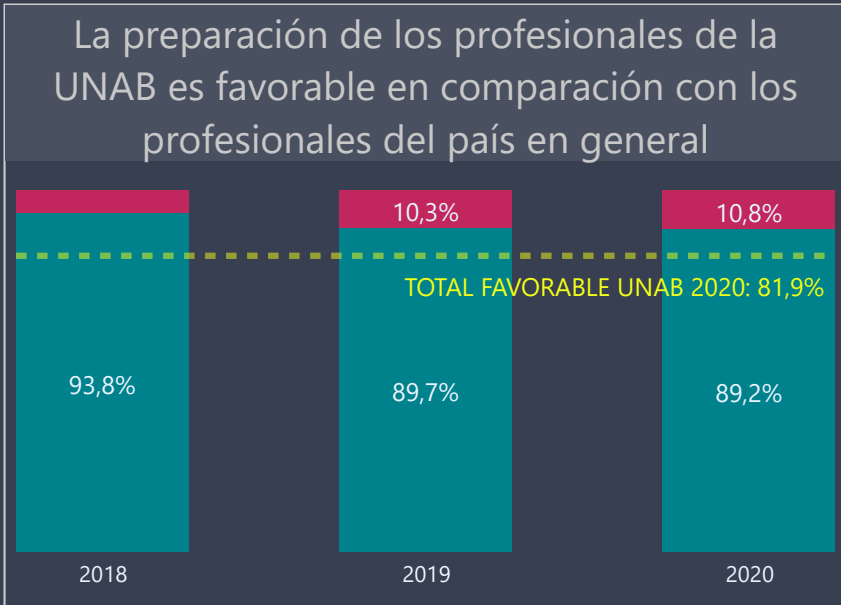

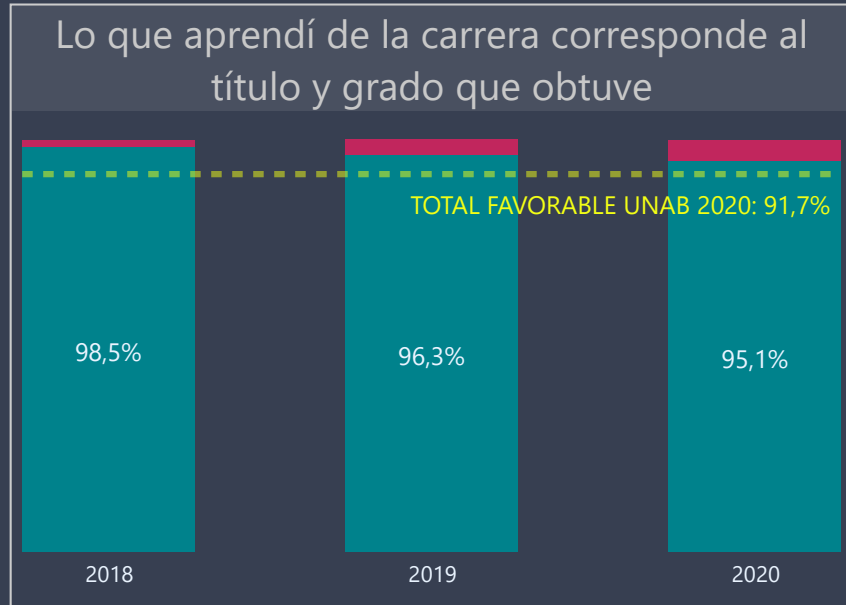

La **línea puntuada amarilla** representa el promedio de respuestas favorables del total de la Universidad en el año 2020

Integridad y capacidad de autorregulación

Competencias generales

Los objetos visuales de esta sección representan la percepción de los encuestados entre los años 2018 y 2020, frente al nivel en que la UNAB les permitió desarrollar distintas competencias. Los gráficos representan el promedio de la Unidad seleccionada con una escala que va desde el 1 al 7, donde 1 es el menos aporte y 7 es el mayor aporte.
